

# JOIN OUR TEAM GYNECOLOGY ONCOLOGIST

**Full-time. | Barrie, ON**

Hudson Regional Cancer Centre  
Royal Victoria Regional Health Centre (RVH)

## THE OPPORTUNITY

The Hudson Regional Cancer Centre (HRCC) is seeking a full-time Gynecologic Oncologist to join a highly collegial, well-established team serving patients across Simcoe Muskoka and Northern Ontario. You'll provide truly comprehensive care—including through an outreach clinic in Sudbury—while working in a setting where collaboration, trust, and shared values drive everything we do. This role includes a cross-appointment in both Surgery and Oncology, reflecting the interdisciplinary nature of the work.

Physicians here often describe RVH as a hospital with its own identity—not just a satellite of a bigger system. The program offers a real sense of connection between team members, with a manageable size and strong inter-specialty collaboration. It's a place where your expertise is respected, your work is impactful, and your lifestyle is sustainable.

## ABOUT THE PROGRAM

- The HRCC's Gynecologic Oncology Program opened in 2014 and now serves women across the region, reducing the need for travel to larger urban centres.
- We partner with Health Sciences North (Sudbury), Orillia Soldiers' Memorial, Collingwood General & Marine, and Southlake Regional Health Centre (Newmarket) to provide a full continuum of care.
- The program offers multidisciplinary consultation, surgery, systemic treatment, radiation therapy, vaginal vault brachytherapy, follow-up care, and supportive services.
- The Cancer Centre includes a 75,000 sq. ft. facility, a 34-chair chemotherapy suite, and four linear accelerators (with space for expansion).

## WHY HUDSON?

### Strong team culture:

You'll know your colleagues, consult across specialties with ease, and feel supported in your work.

### Meaningful patient care:

Serve a region where your skills truly matter and your impact is clear.

### Research optional:

Opportunities exist for those interested, but academic work is not required.

### Right pace for your life:

Ten-minute commute. One hour to Toronto or Muskoka. Time and space for the things you value.

## ROLE DETAILS

- 1.0 FTE in a surgical and multidisciplinary practice
- Join 3 full-time Gynecologic Oncologists, 8 Radiation Oncologists, and 11 Medical Oncologists
- Cross-appointed in Surgery and Oncology
- Includes participation in the Sudbury outreach clinic

## QUALIFICATIONS

- Completion of fellowship in Gynecologic Oncology
- Royal College of Physicians and Surgeons of Canada certification (or equivalent)
- Eligible for licensure in Ontario
- Strong communication skills and collaborative mindset
- A passion for women's health and delivering high-quality care
